

Press Release

ESG RATINGS REWARD RAI WAY'S SUSTAINABILITY

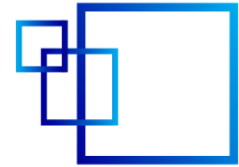

Significant upgrades from CDP Climate Change (from D to B) and Sustainalytics (from Low Risk to Negligible Risk)

Rome, 10 December 2021 - Just under a year after the approval of the first Sustainability Plan, Rai Way's commitment on the ESG front has also been recognised by the main rating providers, confirming the increasing integration of sustainability in its business strategy.

Rai Way has in fact reached the "B - Management" level according to **CDP (Carbon Disclosure Project)**, a global non-profit organisation specialised in the assessment of the performance and climate strategies adopted by companies, having demonstrated that it conducts a coordinated and transparent action on issues related to climate change. In particular, Rai Way has defined a carbon neutrality target for 2025, has confirmed its 100% supply of electricity from renewable sources also in 2021 and applies best practices in climate change governance and risk management.

The **Sustainalytics** rating company, part of the Morningstar financial services group, also acknowledged Rai Way's commitment during 2021, reducing ESG risk from Low (11.7) to Negligible (6.6), with a score assigned to management measures that increased from Average (46.5/100) to Strong (76.6) on all macro-categories examined. In terms of overall ranking, Rai Way is among the top companies worldwide.

The major upgrades in the two ratings testify to management's commitment and focus on coordinated action on climate change issues and continuous improvement of ESG parameters.

Rai Way S.p.A.

Rai Way manages and develops the terrestrial broadcast infrastructure which carries the television and radio signals of RAI, Italy's national public broadcasting company, and provides services to its business customers. Rai Way has an extensive experience and technological, engineering and organizational know-how in the Italian media and broadcast infrastructure market. Such a unique expertise, together with the skills and ongoing training of its around 600 employees, makes Rai Way an ideal partner for any companies and entities seeking for integrated solutions to develop their network and transmit their signals.

Rai Way operates throughout the national territory and can rely on its headquarters in Rome, 20 local network centers and more than 2,300 sites across Italy.
